

## **Second State of the Carbon Cycle Report (SOCCR2)**

### ***A Sustained Assessment Report of the U.S. Global Change Research Program (USGCRP)***

ERRATA documentation

Last updated September 24, 2019

---

#### Chapter 19

Prior figure 19.3 (b) [bottom panel] was corrected. An error was found in the date range for the 1950-1959 decadal average for each RCP. The error was corrected on the date ranges on the decadal averages. The revised figure reflects this change.

#### Chapter 1

The earlier version of Figure 1.5b displayed errors related to curve color shading, curve labelling and legend. The curve on the top is GDP and the one in the middle is CO<sub>2</sub> emissions. To correct the errors, the following corrections were implemented:

- Made the changes to Figure 1.5b (adjust legend to indicate cyan line is GDP and brown line represents CO<sub>2</sub> emissions.)
- Produced new jpeg of Figure 1.5b
- Recompiled the affected PDF versions for the following files on the website, making sure to rename the pdfs the same as they were previously:
  - Full report
  - Section I
  - Chapter 1
